Hicks Nurseries

Price List, 1912

Other Publications

Trees for Long Island. Descriptive catalog of trees, evergreens, shrubs, broad leaved evergreens, vines, roses, hardy garden flowers, plants for formal gardens, fruits, large tree moving, insect and fungus enemies and remedies. This is an original and helpful catalog, illustrating many landscape problems and how to solve them.

Hicks Evergreens for August and September Planting. Describes the planting of all sizes of evergreens at that season.

Planting Large Evergreens in Winter. Evergreens from 6 to 45 feet moved with large balls of earth.

Hicks Trees. Landscapes made by moving large trees 40 to 70 feet high.

The Facts About Hicks Rhododendrons. A circular illustrating beautiful results with these plants.

Write us the area and location of your country place and we will send you the appropriate publications

Business Terms

PRICES. The prices in this list are for trees and plants dug and loaded at our nurseries. WHOLESALE PRICES. Are given by ten, hundred, thousand and ten thousand. Five, 50, 500, and 5000 plants at the 10, 100, 1000 and 10000 rates respectively. Selected specimens at advanced price, according to quality of plant chosen. Prices subject to change without notice.

WE CHARGE FOR DELIVERY AND PACKING FOR SHIPMENT. It is the only equable method, because much of the stock is delivered by wagon or customers call for it. If all of our stock was of the usual small sizes packed for shipment, the packing would be a comparatively small item, and could be included in the price; but, as some of the large trees are difficult and expensive to pack, it would not be equable to make the price include packing. In delivery, frequently three twenty-year-old trees can be delivered and planted with the same men and teams as one tree. We often combine several orders in one trip, thus reducing the expense which is charged approximately pro rata.

Charge is made for packing in boxes, bales or crates. Delivery to the railroad, where our responsibility ceases, is free. The prices on large trees from the nurseries are either for stock loaded at the nurseries, or including delivery and planting. This amount varies according to the movers

used and the distance, and the assistance rendered by the purchaser.

TERMS OF PAYMENT. Net Cash. Unknown correspondents should send satisfactory references, or cash with the order; a bill for the packing will be sent after shipment. Money orders may be obtained for Westbury, Nassau County, New York.

WE DESIRE THAT OUR CUSTOMERS BE FULLY SATISFIED. We should be promptly notified of any errors that they may be rectified the same season. Unlike manufactured articles, plants cannot be made all alike, and they are not complete at the time of purchase. Transplanting is a severe shock, and it takes time and care to re-establish them. See page 102, Large Tree Department, and "How to Plant and Care for a Tree," on third cover page, Descriptive Catalogue.

CARE OF TREES. Cut back the tops. Water, and pack earth firmly between the roots. Mulch with four inches of manure. Water all summer, once in two weeks with one inch of water, and the next day stir the soil three inches deep. Do this first and afterwards complain if the trees do not live and thrive.

TRUE TO NAME. We guarantee our stock true to label, and will replace any that proves otherwise. Late in the season, we may be out of some varieties of fruit and other trees, and will substitute similar varieties and sizes unless otherwise directed. It is well to mention alternate varieties in your order.

GUARANTEE. The living of trees is largely dependent on pruning, planting, cultivating, rain and watering — conditions beyond the nurseryman's control. If you wish your trees guaranteed, please so state when asking 'prices. We inspect much of the stock sold, and replace some which has failed or is in poor condition. Our doing this does not constitute a guarantee. It is manifestly impracticable to inspect all the stock. Take good care of your stock, and you will have little occasion for complaint.

LOCATION. The office is on the Jericho Turnpike, easily reached by automobile, twenty-two miles from the Queensboro Bridge. There is a ferry from Rye, Westchester County, N. Y., to Sea Cliff, Long Island, during the summer months. Sea Cliff is eight miles north of Westbury.

Westbury is a station on the main line of the Long Island Railroad. Auto-hacks waiting at all trains. Westbury has twenty-four trains per day. Mineola, three miles to the west, has forty-four trains per day. The Mineola-Hicksville Trolley Line passes the nurseries, two-thirds of a mile from the office, and connects with Roslyn, Port Washington, Flushing, Garden City, Hempstead, Freeport, Rockville Centre, Hyde Park, Jamaica, and other villages.

Maple, Norway.

The following Norway Maples have been offered to us because they are in the way of new street construction. They are unusually broad trees with solid round heads. They are cheaper than sim-

ilar trees from the nursery. 20-24 ft. high, 8-9 in. diam. 14-16 ft. spr. 55 00 500 00 24-25 ft. high, 9-10 in. diam., 15-17 ft. spr. 65 00

The following Norway Maples are old trees 25 to 35 ft. wide. Priced according to distance to be moved. In ordering please state if we are to dig the hole, which should be 30 ft. wide and 6 inches deep with a saucer shaped depression in the center 8 ft. wide and 18 inches deep. See inside back cover of descriptive catalogue for diagram of hole.

Certificate of Inspection of Mursery Stock

This is to certify, that the stock in the nursery of Isaac Hicks & Son, Westbury, County of Nassau, State of New York, was duly examined in compliance with the provisions of section 305 of the Agricultural Law, and was found to be apparently free from any contagious or infectious disease or diseases or the San Jose Scale or other dangerously injurious insect pest or pests. This certificate expires September 1, 1912.

R. A. PEARSON,

Commissioner of Agriculture.

Dated, Albany, N. Y., September 19, 1911.
